

Full Trilles fence

Full Trilles fence is very popular in Australia, Europe, and American. Compared to traditional rail fences, this fence can have better mechanical properties and a more durable lifetime and provide a more beautiful appearance and easier installation.ct

01

UNIQUE ALUMINUM WOOD COMBINATION DESIGN

The combination of aluminum alloy and plastic wood design innovates the traditional national bar design, which is different from the pastoral style and modern environmental protection. It is deeply loved by European and Oceania customers.

MECOFENCE VS OHTER FENCE

WOOD GRAIN AND RECYCLE

Plastic and consuming

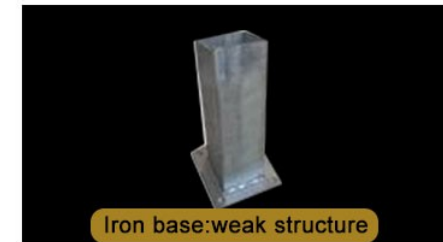

Aluminum POST: sturdy and durable

WPC post: easy to deformation
